Bags

As each page of the Lookbook unfolded, it became clear—this wasn't just about products. It was about making a lasting impact. With every umbrella, bag, or game, Peerless Umbrella proves that innovation and sustainability could walk hand-in-hand, creating something both meaningful and stylish. And with this 2025 Lookbook, Peerless is inviting you to join us in that journey —one product at a time.

SUSTAINABILITY IS A JOURNEY, NOT A DESTINATION...

OUR IMPACT

We're not chasing short-term fixes; we're finding long-term solutions for meaningful progress towards our goals.

For nearly 100 years, Peerless has been providing people protection from the elements under the canopies of our award-winning umbrellas.

As times have changed, the needs of our customers have changed as well. Part of our journey has been to evolve and adapt to best serve the people who matter most to us while still maintaining the family-owned, customer-focused and employee-oriented company Peerless has always been.

EcoVadis Bronze:
Awarded for our dedication to ethical and sustainable business practices.

Factory Compliance:
Regular SMETA 4-Pillar and HIGG audits ensure adherence to labor, ethical, and environmental standards.

Reduced Packaging Waste:
Transitioned to recycled material cartons, cutting down plastic use and environmental impact.

Efficient Waste Management:
Partnered with experts to handle production waste, hazardous materials, and recycling processes effectively.

Carbon Reduction Goals:
Tracking Scope 2 emissions and working towards measurable carbon reduction targets. (QR code for details).

Innovative Materials:
Expanded sustainable offerings with ocean-bound recycled plastics and FSC-certified wood and bamboo. Transitioning all cartons and hangtags to FSC-certified paper.

WHY RECYCLED OCEAN-BOUND PLASTIC?

THIS TYPE OF PLASTIC IS TYPICALLY FOUND WITHIN 50 KILOMETERS (ABOUT 31 MILES) OF COASTLINES IN REGIONS THAT LACK PROPER WASTE MANAGEMENT SYSTEMS. THE GOAL OF RECYCLING OCEAN-BOUND PLASTIC IS TO PREVENT IT FROM BECOMING MARINE DEBRIS, WHICH WOULD CONTRIBUTE TO OCEAN POLLUTION. WASTE2GEAR'S BAGS NOT ONLY SUPPORT OCEAN CLEANUP EFFORTS BUT ALSO PROMOTE ECO-FRIENDLY PRACTICES.

WEATHERMAN

RETAIL IN PROMO

Only the best for the best!

Style WEA062 - The 62" GOLF

The Weatherman® Golf umbrella is the perfect companion on the golf course. Industrial-strength fiberglass prevents breaking and inverting, and vented canopies withstand winds up to 55 mph. The water-repellent fabric keeps you dry, and the UPF 50+ barrier protects you from the sun, making Weatherman® the perfect golf umbrella for rain - or shine.

Style WEA050 - The 50" COLLAPSIBLE

The Weatherman® Collapsible is an ingenious spin on the commuter umbrella. Industrial-strength fiberglass defends against breaking and inverting, the water-repellent fabric keeps you dry, and vented canopies withstand winds up to 55 mph.

Style WEA042 - The 42" TRAVELER

Compact but mighty, the Weatherman Travel® is every commuter's favorite accessory. Engineered for simple use and care, it weighs under a pound and is less than 12 inches in length. Additional features include auto open and close, fiberglass shaft and ribs, matching sleeve, and retail styled packaging with warranty instructions.

#WEA062

#WEA050

The Rebel is as close to the original inverted umbrella as you can get. This fashion forward umbrella is both eye-catching and hyper functional. It opens manually, but has an auto-close feature to make it easier to get into a car and stay dry. Plus, it stands up after use to drip dry.

#2326NW

Nanotech Fabric: The Fabric of the Future

Nanotechnology offers the potential to create hydrophobic materials, which repel water, by emulating the nano-scale structures found in nature. Inspired by the hydrophobic characteristics of many plant leaves, this application mirrors the dewy morning spectacle where water droplets on these leaves form spherical shapes rather than being absorbed. Termed the “lotus effect,” this phenomenon is particularly pronounced in the leaves of the lotus plant, showcasing the capability of nanotechnology to mimic and enhance natural water-repelling properties.

What Is FSC-certified Wood?

FSC-certified wood is sustainably-sourced lumber that has been certified by the Forest Stewardship Council. To be considered sustainable, wood products with this certification have successfully met an array of environmental, social and economic requirements. Due to these predetermined standards, FSC-certified wood can be traced back to its original source, establishing transparency and traceability.
