Why OTTO CAP'S FITTED CAPS ARE A GOOD SELECTION FOR Custom Projects

Style No. 5950-1

Premium Appeal

Fitted caps are often perceived as more premium due to their enclosed back design. This lack of adjustability gives them a fitted, personalized feel, elevating the cap from a generic piece of apparel to a high-quality fashion item. For custom projects, this premium perception can translate into higher customer satisfaction and added value.

OTTO FIT

Our OTTO FIT product line is available in 10 sizes, allowing customers to choose the perfect fit to express their style. It also comes with our upgraded Flex Bill visor, which can be worn flat or curved. The Pro Style front panel provides a large area to display your favorite logo, making it one of the hottest trends in the apparel selection.

Tear-Away Backing

Tear-Away Backing is the most popular stabilizer for embroiderers using stable fabrics. It makes the process of removing excess stabilizer faster and safer than Cut-Away Backing but should be used with caution on exceptionally delicate or stretchy fabrics.

100% Fiber / High Quality / Eco-Friendly

- For most stable and non-delicate fabrics
- Quick and easy to remove
- Eliminates risk of cutting a garment with scissors
- Tears easily and cleanly in both directions
- Provides excellent hoop stability
- Will not perforate during the stitching process

Tear-Away Sheets

STYLE NO.	PACKAGE SIZE	SIZE	THICKNESS	WEIGHT
159-101	250 sheets	4.5" x 7"	0.28 mm	1.18 oz
159-102	250 sheets	4.5" x 7"	0.38 mm	1.68 oz
159-103	250 sheets	4.5" x 7"	0.47 mm	2.42 oz
159-108	250 sheets	8" x 8"	0.38 mm	1.68 oz

Cut-Away Backing

Cut-Away Backing is more commonly used for delicate and stretchy fabrics to provide maximum stability. It allows for better shape retention after repeated washing. Cut-Away Backing makes cutting easy and prevents fabric from being forced down the throat plate.

100% Fiber / High Quality / Eco-Friendly

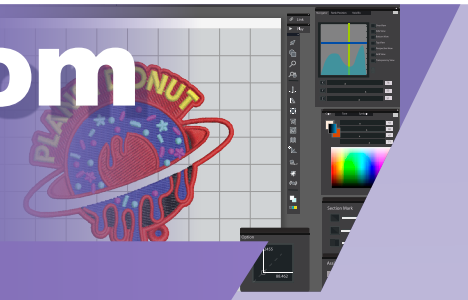

- Good for delicate and stretchy fabrics
- Stability during and after embroidery
- Retains design's shape after repeated washings
- Easy to cut and resist perforations
- Machine-washable and dry-cleanable (low shrinkage)
- Provides excellent hoop stability
