COMMITTED TO SUSTAINABILITY

These thoughtfully crafted items represent a commitment to a healthier planet, a brighter future, and a more responsible way of living.

By opting for eco-friendly products, you actively participate in reducing harmful emissions, conserving water, and preserving our ecosystems.

These choices lessen the strain on our planet, helping it recover and regenerate.

Natural Cork Material

Natural Cork is lightweight, durable, naturally antimicrobial and impermeable to water. Not only is the low amount of production process very efficient, cork is also consciously harvested by hand every 7-10 years from the bark of oak trees. This makes cork an easy choice when it comes to sustainable design in consumer electronics.

Wheat Straw Plastic

Wheat straw plastics represent a pioneering and eco-friendly solution at the intersection of agriculture and sustainable materials. As society's awareness of the need for environmentally responsible alternatives to traditional plastics continues to grow, wheat straw plastics have emerged as a shining example of innovation in the pursuit of a greener future.

360° Motion Tracking Selfie Holder

The Tuba 360° is a motion tracking device by Xoopar. The MA80 grips your phone, and holds it steady while the face tracker moves with you. It has an ultra fast tracking response time, so you won't miss a beat.

Perfect for demonstration sessions, video conferencing, and hands-free training sessions. Made from biodegradable wheat straw, this smartphone stand was made with the environment in mind.

Eco Friendly Bluetooth Speaker

The speaker contains recycled plastic and natural cork; consequently reducing the amount of plastic during the manufacturing process and providing an anti-bacterial surface.

The added-on features of this speaker allow it to turn into a conference speaker with dual-built microphones and noise-canceling.

Eco Friendly Power Bank

Biodegradable power that helps promote your sustainability. This power bank features dual USB ports to support charging two devices, an eco friendly micro USB cable, indicator lights, and 5000 mAh of power.

Eco Friendly Wireless Charging Speaker

Take it with you on the go, small and portable. Boxed in 100% recyclable packaging, this item also includes an eco-friendly micro USB cable. Featuring a 5-watts wireless charger and phone holder.

ECO

WHEAT STRAW

REUSABLE

Eco Friendly Travel Cable Kit

Biodegradable, reusable, compact, and easy to carry. Inside you will find: a Type-C to Type-C cable, Standard USB Connector, Lightning Connector, Micro USB Connector, and a SIM Card Tray Opener. Not to mention the case also turns into a phone stand.

Eco Friendly Foldable Wireless Charger

Featuring a 15 watt wireless charger, a foldable design to support various charging modes, a biodegradable housing, LED indicators, foreign object detection and overcharge protection.

Eco Friendly Light-up USB Drive

The Eco light-up USB Drive blends the timeless beauty of natural wood with the modern convenience of LED technology. The LED light not only serves as an aesthetic marvel but also acts as a functional indicator, letting you know when the drive is in use. Choose from a range of storage capacities to suit your needs, from compact 512GB options to spacious 128GB.

Eco Friendly Type-C Swivel OTG Drive

With dual connectors – USB-A and Type-C, this drive effortlessly links to both your traditional computers and modern devices. No more hassle of searching for different adapters or cables. Crafted from eco-friendly materials.

Eco Friendly USB Drive 700
