These thoughtfully crafted items represent a commitment to a healthier planet, a brighter future, and a more responsible way of living.

Here at KTI we offer a world of eco-friendly products that you will actually use and reuse.

By opting for eco-friendly products, you actively participate in reducing harmful emissions, conserving water, and preserving our ecosystems.

These choices lessen the strain on our planet, helping it recover and regenerate.

Natural Cork Material

Natural Cork is lightweight, durable, naturally antimicrobial and impermeable to water. Cork is consciously harvested by hand every 7-10 years from the bark of oak trees. This makes cork an easy choice when it comes to sustainable design in consumer electronics.

Wheat Straw Plastic

As society's awareness of the need for environmentally responsible alternatives to traditional plastics continues to grow, wheat straw plastics have emerged as a shining example of innovation in the pursuit of a greener future.

GALVESTON BAY FOUNDATION

As a commitment to practice environmental and social sustainability we have partnered with NFP Galveston Bay Foundation to be good stewards of the environment and the social landscape in which we operate.

The **Galveston Bay Foundation** is a conservation nonprofit that has served as guardian of Galveston Bay since 1987. Their mission is to preserve and enhance Galveston Bay as a healthy and productive natural estuary. They work to facilitate a true cross-section of Bay interests through creative, inclusive and forward-thinking solutions to the challenges confronting Galveston Bay.

Galveston Bay is the seventh-largest estuary in the United States, and the largest of seven major estuaries along the Texas Gulf Coast. It is connected to the Gulf of Mexico and is surrounded by sub-tropical marshes and prairies on the mainland. The water in the bay is a com-
