MAKING A lasting IMPRESSION

Thank you for discovering the best.

For over 75 years, Pentel has supplied the world with high-quality writing instruments. As a pioneering manufacturer, Pentel was the first to develop graphite lead and our Super Hi-Polymer lead remains the most popular in the world. We also invented rollerball technology – the smoothest way to express ideas; as well as a variety of mechanical pencil inventions that are the hallmark of the industry.

We take pride in our craftsmanship and control the manufacturing process by producing every mechanical pencil, lead, eraser and pen in our own factories. No other manufacturer can match this commitment to excellence. In fact, Pentel is the only writing instrument company to ever receive the Deming Award in recognition of the highest standards of quality. Plus, we back all of our products with a limited lifetime warranty against mechanical defects to ensure you remain a happy Pentel user for as long as you keep writing.

We are equally committed to the environment and responsible manufacturing. Our Recycology™ products are environmentally friendly writing instruments that don't cost a fortune. Every product is produced from a minimum of 50% recycled materials and nearly all of them are refillable, reducing landfill contributions and saving you money.

Placing your brand on a Pentel writing instrument demonstrates a commitment to quality, performance and the environment that your employees and customers can appreciate and use for years to come.

We would like to thank you for making the "write" impression.
