## Quick and easy to apply!

1. Lay decal **face up** on a smooth hard surface. Squeegee the surface to ensure good contact between the pre-mask and the vinyl beneath it.

2. Lay decal flat **face down**. Slowly remove backing paper from the pre-mask, pulling straight back and flat as shown (not at an angle).

3. Apply pressure-sensitive vinyl to prepared surface, then squeegee pre-mask surface using overlapping strokes.

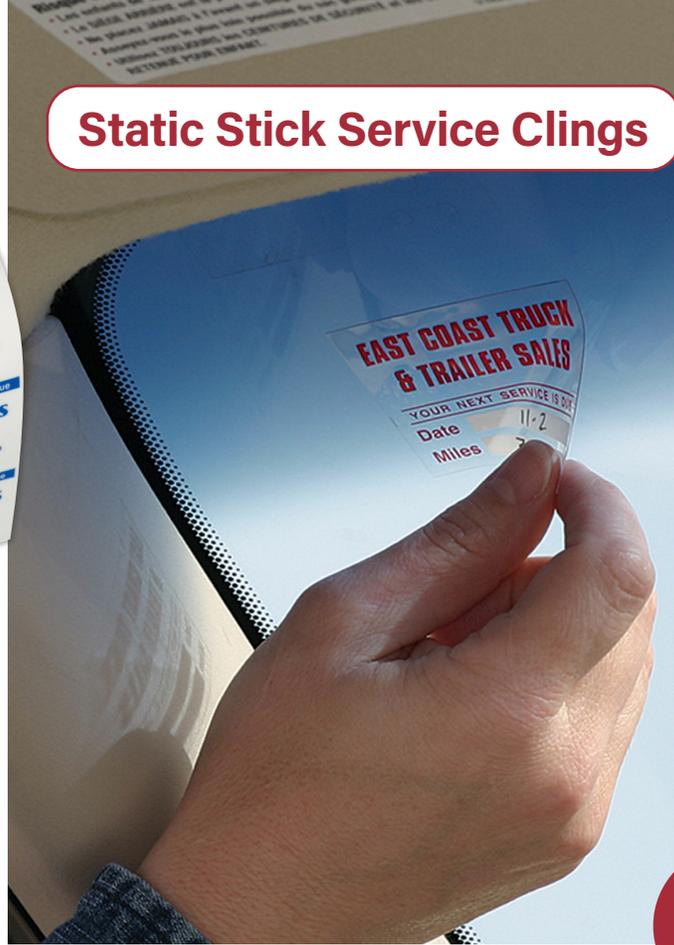

4. To expose product, pull pre-masking straight back as shown above, using a continuous motion. If bubbles occur in the letters, simply prick with a needle and smooth. Do not use a knife or razor.

**Note:** White Pro-Cuts may be supplied on a colored liner for improved visibility. Clear pre-mask is also available on some items. While different liners and pre-masks may have different release properties, all material types will release successfully following the steps specified above.

# Static Stick Service Clings

**Static Stick Service Clings** can be easily removed when the vehicle is serviced again. Because they adhere with static, there is no adhesive residue to clean up.

Available in your choice of rolls or individual clings!  
Clings provided on a roll are supplied 250 clings per roll.

# Artwork Guidelines

## Requirements by Print Method

### Spot Color Printing

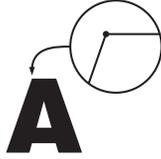

All jobs require vector artwork. If raster artwork is the only art available, contact customer service.

### 4-Color Process Printing

Vector artwork is preferred. If raster artwork is submitted, a minimum of 600 dpi is recommended for best results.

### Vector Artwork

Vector artwork is an image created of points and paths. This artwork is editable, scalable, and able to be separated for spot color reproduction.

### Raster Artwork

Raster artwork is an image created of many pixels. This artwork is not editable, scalable, or able to be separated for spot color reproduction.

## Software and/or File Format

### Preferred

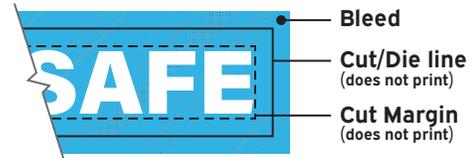

PDF (Fonts converted)  
Creative Cloud  
Illustrator .ai .eps  
InDesign (Include fonts and links)  
Photoshop (Layered)

## Guide to Submitting Artwork

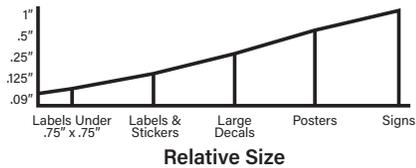

1. Include a .jpg, .png, or .pdf for reference.
2. Convert all fonts to paths/outlines.
3. Include or embed all placed images.
4. Submit artwork at actual size.
5. Identify all spot colors.
6. Allow for bleed if necessary.
7. Submit the original file if possible.
8. Never flatten/merge the layers of a .psd.
9. Indicate the cut/die line clearly.
10. Verify art meets all Artwork Guidelines.

## Cut Margins, Bleeds, Fonts

**Cut Margin** is the minimum space required between elements of art and the finished edge of the product. Size and type of product are the two main factors that determine cut margin. Note that bleed borders must meet or exceed our minimum cut margin.

### CUT MARGIN GUIDE

**Bleed** is the distance the ink extends past the finished edge of the product before final cutting. Standard minimum bleed is 1/8" (.125"). Raster files must allow for the required bleed when submitted because they are not editable like vector files.

**Converted text** is vector artwork and as such can no longer be spell-checked. However, it does not require fonts in order to be displayed or printed correctly.

**Live text** is still in a text format in the artwork's original program and can still be spell-checked and corrected. Live text requires the fonts used in order to be displayed and printed correctly.

### Minimum Font Sizes

Sans Serif in All Caps    Positive: 4 pt. bold    Reverse: 6 pt. bold  
Serif in All Caps    Positive: 6-8 pt. bold    Reverse: 10-12 pt. bold

## Alphanumeric Numbering, Variable Data, Barcodes

**Alphanumeric Numbering** is available with letters for use as prefixes and suffixes. Example: "A123", "123 RED LOT"

**Variable Data** is available for copy such as phone numbers and locations. Submit a spreadsheet containing the data.

**Barcodes** are available as constant, variable, or consecutive, in Code 39. Barcodes with variable numbers will require a spreadsheet. Chrome and reflective materials will interfere with code readers. White is required behind barcodes and QR codes.

### Opacity and Contrast when using White Ink on Clear Materials

Clear materials often require white to maintain color integrity. Three options are typically used depending on the art and text elements.

#### Flooding the background white

Flooding coats the entire decal with white and, except on rare occasions, it should be done with face application clear decals only.

#### Applying a white halo to elements

Elements with a halo are backed for opacity and have white extending slightly beyond the art creating a "halo" effect. It is best used to increase contrast against dark backgrounds.

#### Backing up elements or text

If the text or elements are thick enough, the white can be printed behind the text or elements only. While adding opacity, white would be unseen from the front of the decal.

# General Information

## Orders or Quote Requests

Build an instant quote and order online. If sending an email, include:

1. Your name and contact information
2. Company name, address, and telephone numbers
3. Note whether request is for a quote or an order
4. Material
5. Item Number
6. Size
7. Quantity
8. Colors, including names and numbers (i.e. #19 Fire Red)
9. Note whether art is to be positive or reverse

When your email order or quote is received, a system response will be emailed back. If you do not receive this confirmation within a period of one hour after sending the file, please check your spam or junk folder and resend the file if needed. To assure we can accurately view your art, send a .jpg or .pdf file along with your vector art. See Appendix A for additional art guidelines.

## Material Thickness

Throughout the catalog items are listed with various thicknesses. All measurements are approximate.

## Changes

Changes to orders after art is ready for production will require a minimum \$21.00 (net) change fee. The order will be canceled and entered as a new order. Additional charges may apply based on the change required and optional services (e.g., copy changes, numbering, variable data).

## Cancellations

There will be no cancellation charges if the order is canceled before the artwork is started. There will be a \$48.00 (net) minimum charge if the order is canceled after the art has been started but prior to production. An order cannot be canceled if production has started.

## Art Preparation

There are no art charges for orders with approved digital art or for factory art preparation of copy set in standard typesets. If artwork requires rework, extensive typesetting or design, add \$51.00(C) on the first order only. Contact customer service for complete details. Additional charges may be required to complete the work. To create your own artwork, follow the complete guidelines found in Appendix A.

## Copy/Color Changes

Copy or color changes may be used to combine lots for quantity savings. Add \$46.00(E) per each change. Copy and color changes cannot be combined on the same order. Changes must be in multiples of the minimum quantity shown for the item ordered. If more than 5 color or copy changes are needed for your order, contact customer service to review.

## Numbering/Barcodes

Numbering and barcodes are available on items other than those shown in the catalog. Contact us for pricing and styles. We do not guarantee that there will not be any missing numbers.

## Non-Standard Quantities

Any order calling for quantities between standard catalog quantities will be priced at the lower quantity price. Example: An order of 800 will be priced at the 500 quantity price.

## Overruns/Underruns

Due to the difficulty of manufacturing to exact quantity requirements, a shipment of 5% over or under the quantity ordered will constitute a complete order. We will not charge for overruns included in your shipment.

## Less Than Minimums

If your order requires a quantity that is less than what is found in the catalog, please contact us for pricing.

## Political Orders

The client is responsible for including required funding declarations for political advertising. Each state has different laws regarding political advertising and appropriate copy must be supplied with your order.

## Halftones

Screens/Halftones of a color will require an additional charge of \$32.00(E). Both new and repeat orders are subject to halftone charges.

## Production Times

Production times are approximate and are listed for each item on each catalog page. Use the website to streamline your order through our manufacturing process. Specific ship dates must be confirmed with our customer service department. If a proof is needed, production time will begin after the proof has been approved. Additional or extended processes will increase standard production times.

## Repeat Orders

Identify repeat orders with the previous order number and year it was produced. Orders are retained on file for one year. A sample may be needed and art charges may apply for orders older than one year.

## Rush Service

We will, for an additional charge, produce an order in less than normal production time. Charges and availability vary depending on current workload, item involved and complexity of art. We also offer several Kwik-SHIP items. See pages 10-17, 38, 48, 93 and the Labels section (pages 100-104 and 107) for more details.

## Shipping Policies

Indicate your preferred shipping method. If no instructions are given, we will ship ground freight via our standard carriers. If motor freight shipments are required using standard 40" x 48" pallets, there will be a skidding charge of \$18.50 (net) for the necessary packing and banding. Orders requiring a larger pallet will incur a \$81.00 (net) skidding charge. Additional charges will apply if you require a liftgate or inside delivery. We ship all orders prepaid, unless requested otherwise. We do not ship C.O.D.

## 3rd Party Freight

Handling charges will be added to all orders requesting 3<sup>rd</sup> party freight billing.

## Split Shipments

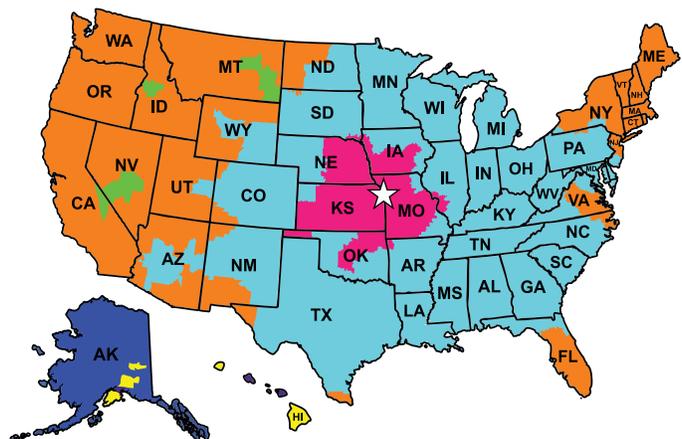

For a split shipment, there will be an additional \$8.50 (net) charge for each destination after the first.

## F.O.B. Point

All prices are F.O.B. our plant in Kansas. We are not responsible for orders lost or damaged in transit.

## Product Use

No items offered are designed or intended primarily for children 12 years of age or younger. We reserve the right to use all products in advertising, on displays and as samples unless otherwise clearly specified in writing at the time an order is placed. All registered trademarks and trademarks shown are the property of their respective holders.

# Die Cutting & Ink Colors

## Die Cutting

There are many stock shapes throughout the catalog to reduce costs to our customers. Die charges in the catalog reflect the cost of dies that follow a general die shape and do not require intricate detail, sharp points, or excessive bending (for example, a starburst or tight cuts around a text element). Additional charges will be required for these circumstances.

**To Determine Sq. Inches:**  
Multiply the width (in.) by the height (in.)  
6 in. x 3.375 in. = 20.25 in.<sup>2</sup>

## Sticker Sheet Set-Up

It's easy to create production-perfect sticker sheets! Follow these guidelines when setting up your art to ensure your custom sticker sheets print and kiss-cut successfully:

- Edge Bleed (Sheet): Extend your artwork at least 3/32" (.09375") past the outside finished edge of the full sheet.
- Cut Margin (Edge Spacing): Keep at least 1/8" (.125") of space between the edge of your sheet and any sticker cut lines.
- Space Between Kiss Cut Shapes: Maintain at least 3/16" (.1875") of space between each internal sticker edge or kiss-cut shape.
- Bleed Around Each Design (if desired): Allow 3/32" (.09375") of bleed outside each kiss-cut sticker shape.
- Cut Margin per Kiss Cut Shape: Leave an 1/8" (.125") inner margin from the edge of the kiss-cut to the beginning of key elements of sticker art.
- Corner Styling: Round both outer and inner kiss-cut points for a clean finish that's easy to separate and prevents stickers from peeling prematurely.
- Die Line: Clearly indicate cut or die line with an unused spot color.

## More Than Printing

### Custom Products

Custom Products are part of our DNA. Everything found in our catalog is made-to-order. This makes everything we do "custom." Contact us with your application details if you need an item not found in the catalog. We are glad to review projects with specialty materials, complex die-cutting, extended quantities, and more. Making custom products to solve unique applications is what we do every day.

### Foil Stamping

Foil Stamping is available for many products in our catalog in addition to those items that list it as an optional service. Adding foil enhances appearance and provides security features.

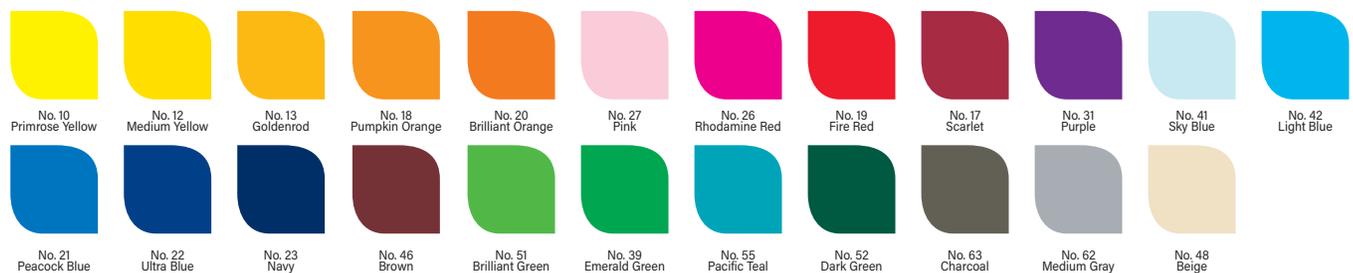

### Numbering/Barcoding/Variable Data

We are glad to help with applications that require numbering/barcoding and other variable data elements on a variety of our products.

## Standard Screen Printed Ink Colors

**Note:** These colors represent our standard inks. Due to the limitations of litho reproduction, actual colors may vary. These colors should only be used as a reference. Other choices not shown include: Black, White, Metallic Silver, Metallic Gold, and Fluorescent Colors (Yellow, Orange, Pink, Red, and Green). PMS matches will require \$49.00(E) per color. We cannot guarantee a perfect match. Ink colors may vary based on print method and substrate.
