### Bamboo Cutting Boards

Bamboo is actually a grass that grows to its full height in a single growing season. Each plant can be harvested every year making it 100% renewable. Bamboo is harder and denser than most hard woods, making it ideal for cutting boards. We use only premium grade Bamboo and food grade glues. Bamboo should be hand washed and never put in a dishwasher.

## A NOTE ABOUT OUR PRODUCTS

ProRose products are made of a variety of plastic materials. Many of our products are surface imprinted, and imprints may fade or deteriorate over time. Cleaning our products using dishwashers, alcohol based cleansers, and abrasive cleaning agents will negatively affect the imprint and the products integrity and lifespan. For best results, rinse and pat dry with a soft cloth.

Plastic resins are free of any and all mercury, cadmium and chromium compounds and are safe for use in direct food contact and packaging. Our printing inks are also free of lead and heavy metals.
