

METROPAK

THE SUSTAINABLE
BAG SOURCE

2021 CATALOG

UNIQUELY SUSTAINABLE
BAGS AND MAILERS

MADE TO ORDER BAGS SINCE 1976

Metropak has been a trusted supplier to distributors for 30 years! In 2021 the company celebrates its 45th year in business.

The Company's owners Eric Grossman and Edward Hanson have known each other since 3rd grade. They have been with the business for 31 years and 29 years respectively. The two have a passion for the business and continues to lead the industry in the "Made to Order Tote Bag" category. The company boasts a great culture and the best service in the industry. They have managed to maintain a 5 star rating with ASI and A+ with SAGE for many years. Metropak has been nominated numerous times by Counselor magazine as one of the industry's best places to work.

With many stock materials and bag size options, Metropak, through its unique processes and efficiencies boasts the lowest minimum in the industry for "Made to Order" bags. With just a 2,000 minimum for most bags, distributors are able to offer affordable 2 side printing and multiple ink colors.

Boosting its US manufacturing & delivering more sustainable bag options is a priority for the company. This year Metropak introduces RETHINK Poly™, a new material made from 90% recycled content. The company's bags made with this extraordinary level of recycled material are backed up with SCS certification.

Utilizing recycled post consumer materials in our products at such high percentages is really exciting! With our introduction of OceanPoly™ in 2020 & RETHINK Poly™ this year, we have created two very exciting products that open new doors for our distributors by getting conversations started with sustainable corporations. We have never been more excited about the industry and our future as suppliers.

Our continued investment in the USA and our Texas manufacturing facility, along with our relentless sustainability developments are enabling us to recover a lot of the larger pieces of business that had moved offshore.

Thank You!
Eric & Edward

Introducing Bags & Mailers made with **OceanPoly®**

What is OceanPoly®?

OceanPoly® is one of the best solutions to our marine plastics problem. OceanPoly® contains a minimum of 50% recycled content, 25% from marine plastics (recovered from HDPE bottles and plastic bags) which have been collected from ocean pollution source areas, including beaches and waterways that flow into the oceans. OceanPoly® can be used in manufacturing many different types recyclable packaging, including plastic bags and poly mailers.

Why use bags & mailers made with OceanPoly®?

The real question is, why not? We all benefit from cleanup of our oceans and waterways. Once plastic makes it into the deep sea, it is nearly impossible to collect on a large scale, and has degraded to the point that it has very little or no commercial use or value. Collecting plastic garbage near its source, in ocean areas like beaches and waterways that flow into our seas, is our best solution to stop the growing marine plastic problem we face today. By using products produced with OceanPoly® you are making a statement that you care!

Marine plastic has become a global problem and is detrimental to our environment and marine life. Visit OceanPoly.com or scan the QR code here for more information.

An extended benefit...

Supporting the cleanup effort creates jobs for those in economically challenged regions. Populations like Haiti, Indonesia, the Philippines, Mexico's Yucatan Peninsula and the Dominican Republic. Using products made from OceanPoly®, creates demand and financially incentivizes local populations to collect materials such as HDPE and PET, which can be recycled efficiently.

By choosing OceanPoly®, you are choosing to invest in others, help protect marine life and tackle the ocean pollution problem at its source. Look for bags and packaging with the OceanPoly® logo.

OceanPoly® bags and mailers are certified by SCS, the premier organization for post consumer recycled content verification.

let's make waves together

OceanPoly®

Patch Handle Bags

This bag is recyclable and made with 50% recycled content, with a minimum of 25% post consumer Oceanpoly material. The use of bag made from Oceanpoly is part of the solution to our marine plastic problem. Scan QR code for informative video or visit Oceanpoly.com for more information.

This stock endorsement will be added to your imprint on OceanPoly® bags.

Production: 3-4 weeks from art approval. For rush orders please inquire. (Lead time may be longer during peak season, Sept.-Dec.)

Printing: 1 color, 2 sides, 50% ink coverage. Solid "blocks" of ink are discouraged. Due to irregular surface smoothness from recycled content, heavy ink coverage is not recommended.

For each additional imprint color (up to 2 additional colors), add as follows per bag:

2,000	3,000	5,000	7,500	10,000	15,000
.16¢	.11¢	.07¢	.05¢	.03¢	.02¢

Over/under run allowance: 2,000 - 15,000 = 20%

PMS Inks: \$95/g charge for custom non-metallic color on orders less than 5,000. Over 20 standard ink colors available at no charge. Refer to page 30.

Plates: Plate charges listed in price grid are per color and/or copy and indicate a recommended print size. For larger imprint, see plate charges on page 31.

NEW! Higher recycled content.

RETHINK POLY

ragbags

REUSE. REPURPOSE.

U.S. PATENT 9,132,939 and U.S. PATENT 9,132,940
International Patents Pending

What is a RagBag?

RagBags are made from a revolutionary bio-based material that is soft, strong, and absorbent. They can be reused and repurposed, eliminating the need for plastic or paper bags. When or if you do throw them away, they're degradable.

Soak up a spill, dust off furniture, or use it as a lunch bag.

RagBags are so much more than just shopping bags. Their super-absorbent fabric makes them ideal for soaking up spills or daily cleaning around the house. RagBags can replace paper towels and can be used hundreds of different ways. And they're washable, which means you can reuse them over and over again.

RagBags are 8x more absorbent than a standard paper towel.

A single RagBag when reused can replace two full rolls of paper towels, reducing waste and saving precious resources.

The endlessly useful, environmentally responsible fabric bag is available in original grocery style and die-cut handle.

Original Grocery Style Degradable Ragbags:

Made with 57G BPI certified compostable cellulose non-woven fabric. Materials are super absorbent and bio-based. These bags will hold up to 16 lbs. This unique bag is soft and sturdy.

Die-Cut Handle Degradable RagBags:

Made with sturdy 65G plant based non-woven cellulose and corn based PLA blend. These bags are sturdy and will hold up to 8 lbs.

100's of uses

ragbags.com

ragbags™

REUSE. REPURPOSE.

The only tote bag designed to be repurposed as a rag.

RBAG1518DC

RBAG1316DC

RBAG1013DC

Die-Cut Handle Ragbags

- Material:** White only. Degradable bio-based cellulose non-woven. Featuring grocery bag style handles or 3.25" x 1 die-cut hole.
- Printing:** 1 color, 1 side imprint, light ink coverage. Over 20 standard ink colors available at no charge. Refer to page 30. Can be printed on two sides at same price, add one additional plate charge.
- Plate:** Due to specialized inks required for this item, ink colors are limited to: Black, Reflex Blue, Navy Blue, Process Blue, Pink PMS #212, Hunter Green close to PMS #349, Lime Green close to PMS #362, Red close to PMS #485.
- Plate:** One plate per color and/or copy.

Over/under run allowance: 10%.

Production: 4-6 weeks from art approval.
Production time may be longer during peak season Sept-Dec. Inquire for rush orders.

Important Printing Information:

Due to its absorbency, Ragbag imprint will have a somewhat weathered look. Solid "blocks" of ink are discouraged, lighter ink coverage and smaller imprint sizes are recommended for the best results. All Ragbags are printed with the Ragbag Trademarked logo and reusability information.

About Us

Ordering Information

- All orders must be received in writing via fax or e-mail.
- For accuracy please include the following:
Item number, style, color and quantity,
imprint color and the size of the art.
Ship to address, method of shipping and requested in hand date.
- Your art file must reference your purchase order number to avoid delays. All orders must be accompanied by vector art. See ARTWORK requirements below.
- Unless otherwise noted the imprint will be centered within the printable area of the bag. (Note: due to bag construction this printable area may not be the exact center of the bag.)

Credit Policy

- New Accounts: A credit application must accompany or precede your order. Allow 5 days for credit clearance. If you wish to proceed immediately, please enclose a 50% deposit, or your order can be charged to your credit card.
- Established Accounts: Net 30 days. Large dollar volume sales require special arrangements.
- Imported orders require a 50% deposit.

VISA, MasterCard and American Express are accepted. The following information must be provided to insure proper billing and order acceptance.

1. Type of credit card (VISA, MasterCard or American Express)
2. Account Number
3. Expiration Date
4. Name as it appears on the credit card.
5. Security code
6. Billing address if different than company address

ARTWORK: All artwork must be vector and submitted via email in either EPS or Adobe Illustrator format. Flexographic printing may sometimes require that modifications be made to the artwork to accommodate tight registration, these modifications will only be done with customer approval. Any changes will be made at customer's request and jobs requiring art time beyond 15 minutes will be billed \$120(g) per hour of art charge. Please inquire for art specifications on multiple color jobs or jobs with screens.

STOCK INK COLORS

Custom PMS ink match, non-metallic match \$70 (G)

ACKNOWLEDGEMENTS: All orders are acknowledged with a confirmation by email. Confirmations for printed orders must be signed and returned prior to scheduling order for production.

PROOF: Emailed PDF proofs are sent for new orders or all orders requiring artwork or changes. Printed sample proofs are only available on qualifying orders produced offshore. Proofs are not sent for exact reorders unless specifically requested, additional charge may apply.

CANCELLED ORDERS: In many cases custom-made materials are purchased to produce your order. Once a purchase order is received any costs incurred prior to change or cancellation of an order will be the responsibility of the customer.

SPECIAL PACKAGING: Available by special quotation. We reserve the right to deviate from the standard packaging information provided on our price schedules, unless specific needs are indicated on the order.

SHIPPING: UPS or FedEx Ground will be used for small shipments. Larger shipments will be shipped via truck lines. We reserve the right to determine which carrier will be used if not specified. If purchase order states "will advise" as the ship to address, we must be notified of address five days prior to ship date. Our commitment to on time delivery for sure dated orders is limited to the time prior to pick up by the freight company. Once freight is consigned to freight carrier, we accept no responsibility for any delay of delivery. We do not ship with US Postal Service.

SPLIT SHIPMENTS: Available in full case lots only. Call for pricing.

RESTOCKING CHARGE: A 20% restocking charge may apply on unprinted returned merchandise. No returns will be accepted without a return authorization number.

INK COLORS:

Any non-metallic PMS ink color match is free for large quantity orders of plastic bags and poly mailers of 5,000 or more. A PMS Ink match charge of \$95 (G) will apply on all orders below 5,000. Fluorescent ink colors are not available. Please see our standard PMS ink colors below.

Domestic Printing Information

PLATE CHARGES:

Plate charges for the standard imprint size are listed with each product on their respective page. If an alternate imprint area is required, the plate charge is subject to change. To print on 1 side, plates are \$1.95 (g) per square inch or \$45 (g) minimum per color, per copy. When printing 2 sides, plates are \$3.45 (g) per square inch or \$90 (g) minimum per color, per copy. Plate charges will double for bag sizes less than 12" wide. To calculate plate charges, measure the overall length * the overall width of each color separately. The resulting area is the plate size for each color. Plates are stored for 3 years upon which they are discarded. During that time, exact reorders will not incur plate charges. For orders requiring more than 3 colors, halftones, or process printing, a custom quote is required.

EYE MARKS:

Manufactured plastic bags require a small mark (approximately 3/16" x 1") be printed on the face of the bag. This is needed to identify where to cut and seal the bag.

OVER/UNDER RUN ALLOWANCE:

Less than 25,000 = 20%; 25,000-50,000 =15%; 50,000+ = 10%
These production allowances are based on industry standards primarily due to the flexo-web printing process. Special needs can be accommodated, but will require a custom quotation. Material tolerances, bag sizes and thickness can vary by as much as 10%.

PRODUCTION TIME:

Listed separately for each product. Three to six weeks from proof approval; depending on product being ordered.

SHIPPING: FOB Factory

Off Shore Manufacturing General Information

INK COLORS: Free PMS ink match for non-metallic ink colors.

PLATE CHARGES: Plate charges are per color and in last column listed on their respective pages. Plates are billed at cost and are different for each product. Plates are custom quoted for full ink coverage on plastic bags. One printing plate is required per color per side. Art for PROCESS printing requires one plate per color (4 total) not including additional plates required for possible pms color match (if needed).

RUSH ORDERS: Rush orders must be approved by factory before a firm commitment can be made. Air freight may be required.

FOR QUICKER LEAD TIMES:

See special Expedited Lead Time pricing on appropriate page for each item.

ARTWORK: Process printing requires high-resolution vector artwork sent in on disc with accurate color print. Spot printing requires vector art but can be emailed or uploaded to our ftp site.

PRODUCTION TIMES:

Production time is from date of final art approval and/or proof approval, (not from date order is received) to ENTRY and does not include in land shipping transit time and/or time needed for customs clearance. Factory accepts no responsibility for customs or forwarding delays that are beyond our control.

FOB: Los Angeles port.

TERMS: All offshore manufactured orders require a 50% deposit. Balance net 30 days with credit approval.

OVER/UNDER ALLOWANCE:

Listed on respective pages.
Tolerance: bag sizes and thickness can vary by as much as 10%.

Your #1 source for made to order bags with 2,000 minimums on some styles printed up to 3 colors. We are not "decorators" of bags but rather manufacture a majority of the bags we offer. We also maintain sophisticated prepress operations. As true manufacturers, we are able to deliver the best printing and finest quality possible.
