Metropak is a Texas based manufacturer and the leading supplier of made to order bags, packaging, and e-commerce mailers for promotional products distributors. The Company's owners, Eric Grossman & Edward Hanson, have been friends since elementary school. They purchased the business over 25 years ago from Eric's father. The two have both been with the company for over 30 years and have a tremendous passion for the business and the industry it serves.

Metropak has won numerous awards for its innovation in sustainable packaging and is recognized in the industry for its commitment to customer satisfaction. Edward & Eric take pride in the company's many innovations and its leadership in the development of sustainable packaging. In 2015 the company was given the Golden Achievement Award for Ragbags, its uniquely usable and degradable bag, that can be repurposed as rag. In 2021 the company introduced OceanPoly Bags and Mailers, made from Marine plastics, these are SCS Certified and lead the fight against ocean plastic pollution. The largest brands rely on Metropak to support them with eco-friendly packaging that often tells a unique story.

Metropak continues to invest in the development of new sustainable and reusable and recycled materials. The company

has a state of the art manufacturing facility in Texas and offers quick lead-times, quality and pricing. In 2021 the company added a new 8 color central impression press which allows printing of stellar 4 color process work and the ability to print larger jobs at very high speeds.

Our continued success is due to the drive and dedication of our employees, and our management team. It is in our nature to not only solve problems, but to develop new products that keep our distributors relevant, and customers coming back. We can't thank our distributors enough for their ongoing support, and for continually challenging us to work with them to provide new types of products and programs.

OceanPoly®

bags & mailers made from marine plastics

What is OceanPoly®?

OceanPoly® is one of the best solutions to our marine plastics problem. OceanPoly® contains a minimum of 50% recycled content, 25% from marine plastics (recovered from HDPE bottles and plastic bags) which have been collected from ocean pollution source areas, including beaches and waterways that flow into the oceans. OceanPoly® can be used in manufacturing many different types recyclable packaging, including plastic bags and poly mailers.

Why use bags & mailers made with OceanPoly®?

The real question is, why not? We all benefit from cleanup of our oceans and waterways. Once plastic makes it into the deep sea, it is nearly impossible to collect on a large scale, and has degraded to the point that it has very little or no commercial use or value. Collecting plastic garbage near its source, in ocean areas like beaches and waterways that flow into our seas, is our best solution to stop the growing marine plastic problem we face today. By using products produced with OceanPoly® you are making a statement that you care!

Marine plastic has become a global problem and is detrimental to our environment and marine life. Visit OceanPoly.com or scan the QR code here for more information.

An extended benefit...

Supporting the cleanup effort creates jobs for those in economically challenged regions. Populations like Haiti, Indonesia, the Philippines, Mexico's Yucatan Peninsula and the Dominican Republic. Using products made from OceanPoly®, creates demand and financially incentivizes local populations to collect materials such as HDPE and PET, which can be recycled efficiently.

By choosing OceanPoly®, you are choosing to invest in others, help protect marine life and tackle the ocean pollution problem at its source. Look for bags and packaging with the OceanPoly® logo.

OceanPoly® bags and mailers are certified by SCS, the premier organization for post consumer recycled content verification.

Material: 2.5 mil white OceanPoly®

Production: Normal lead time is 3-4 weeks from art approval. For rush orders please inquire.

Printing: 1 color, 2 sides, 50% ink coverage. Solid "blocks" of ink are discouraged. Due to irregular surface smoothness from recycled content, heavy ink coverage is not recommended.

For each additional imprint color (up to 2 additional colors), add as follows per bag:

2,000	3,000	5,000	7,500	10,000	15,000
.17¢	.12¢	.08¢	.05¢	.03¢	.02¢

6E
Over/under run allowance: 2,000 - 15,000 = 20%

PMS Inks: \$95/g charge for custom non-metallic color on orders less than 5,000. Over 20 standard ink colors available at no charge. Refer to page 26.

Plates: Plate charges listed in price grid are per color and/or copy and indicate a recommended print size. For larger imprint, see plate charges on page 27.

This stock endorsement will be added to your imprint on OceanPoly® bags.

This mailer is recyclable and made with 50% recycled content, with a minimum of 25% post consumer Oceanpoly® material.
The use of mailers made from Oceanpoly® is part of the solution to our marine plastic problem. Please remove the adhesive tape prior to recycling through a store drop off program. Scan QR code for informative video or visit Oceanpoly.com for more information.

Important Printing Information:

Due to its absorbency, Ragbag imprint will have a somewhat weathered look. Solid "blocks" of ink are discouraged, lighter ink coverage and smaller imprint sizes are recommended for the best results.

All Ragbags are printed with the following Ragbags logo and reusability information in same ink color as customer imprint.

This bag is designed to be repurposed as a cleaning cloth. Degradable - Made with bio-based materials.

FOOD GRADE TISSUES

CUSTOM PRINTED FOODSERVICE PAPER JUST GOT INTERESTING...

Award winning premium quality food paper for the food to go, hospitality and casual dining sectors. Whether you're wrapping a sandwich, sub, taco or hot dog, presenting fries and burgers on trays or baskets or just need a cool table placemat or box liner, our food grade tissue has you covered.

Our multi-purpose paper is available in 23lb white or 25lb natural brown, and custom printed in any color and design you choose. It's been specially designed for both hot and cold foods, and is made from a top quality high wet strength FDA approved material that copes with even the most demanding of heavy sauce and oily food applications.

Our specially manufactured papers are compostable, biodegradable and recyclable. They are made naturally without any coatings enabling them to be used in the oven, microwave and freezer and is fast becoming the one stop solution for the majority of food applications in the industry.

Why so interesting?

- Buy from as few as 2000 20" x 13" sheets.
- You get a FREE digital proof.
- We print in any color including full color registered print.
- We deliver right to your door.

IMPORTANT INFORMATION

Ordering Information

- All orders must be received in writing via fax or e-mail.
- For accuracy please include the following:
Item number, style, color and quantity, imprint color and the size of the art.
Ship to address, method of shipping and requested in hand date.
- Your art file must reference your purchase order number to avoid delays. All orders must be accompanied by vector art. See ARTWORK requirements below.
- Unless otherwise noted the imprint will be centered within the printable area of the bag. (Note: due to bag construction this printable area may not be the exact center of the bag.)

Credit Policy

- New Accounts: A credit application must accompany or precede your order. Allow 5 days for credit clearance. If you wish to proceed immediately, please enclose a 50% deposit, or your order can be charged to your credit card.
- Established Accounts: Net 30 days. Large dollar volume sales require special arrangements.
- Imported orders require a 50% deposit.

VISA, MasterCard and American Express are accepted. The following information must be provided to insure proper billing and order acceptance.

1. Type of credit card (VISA, MasterCard or American Express)
 2. Account Number
 3. Expiration Date
 4. Name as it appears on the credit card.
 5. Security code
 6. Billing address if different than company address
- On invoice payments of \$10,000 or more by credit card, a 3% processing fee is added. Processing fee is waived on prepaid orders.

ARTWORK: All artwork must be vector and submitted via email in either EPS or Adobe Illustrator format. Flexographic printing may sometimes require that modifications be made to the artwork to accommodate tight registration, these modifications will only be done with customer approval. Any changes will be made at customer's request and jobs requiring art time beyond 15 minutes will be billed \$120(g) per hour of art charge. Please inquire for art specifications on multiple color jobs or jobs with screens.

ACKNOWLEDGEMENTS: All orders are acknowledged with a confirmation by email. Confirmations for printed orders must be signed and returned prior to scheduling order for production.

PROOF: Emailed PDF proofs are sent for new orders or all orders requiring artwork or changes. Printed sample proofs are only available on qualifying orders produced offshore. Proofs are not sent for exact reorders unless specifically requested, additional charge may apply.

CANCELLED ORDERS: In many cases custom-made materials are purchased to produce your order. Once a purchase order is received any costs incurred prior to change or cancellation of an order will be the responsibility of the customer.

SPECIAL PACKAGING: Available by special quotation. We reserve the right to deviate from the standard packaging information provided on our price schedules, unless specific needs are indicated on the order.

SHIPPING: UPS or FedEx Ground will be used for small shipments. Larger shipments will be shipped via truck lines. We reserve the right to determine which carrier will be used if not specified. If purchase order states "will advise" as the ship to address, we must be notified of address five days prior to ship date. Our commitment to on time delivery for sure dated orders is limited to the time prior to pick up by the freight company. Once freight is consigned to freight carrier, we accept no responsibility for any delay of delivery. We do not ship with US Postal Service.

SPLIT SHIPMENTS: Available in full case lots only. Call for pricing.

INK COLORS:

Any non-metallic PMS ink color match is free for large quantity orders of plastic bags and poly mailers of 5,000 or more. A PMS Ink match charge of \$95 (G) will apply on all orders below 5,000. Fluorescent ink colors are not available. Please see our standard PMS ink colors below.

STOCK INK COLORS

Custom PMS ink match, non-metallic \$95 (G)

361 Lime	476 Brown	268 Purple	871 Gold	877 Silver	322 Teal	423 Gray

Domestic Printing Information

PLATE CHARGES:

Plate charges for the standard imprint size are listed with each product on their respective page. If an alternate imprint area is required, the plate charge is subject to change. To print on 1 side, plates are \$1.95 (g) per square inch or \$45 (g) minimum per color, per copy. When printing 2 sides, plates are \$3.45 (g) per square inch or \$90 (g) minimum per color, per copy. Plate charges will double for bag sizes less than 12" wide. To calculate plate charges, measure the overall length * the overall width of each color separately. The resulting area is the plate size for each color. Plates are stored for 3 years upon which they are discarded. During that time, exact reorders will not incur plate charges. For orders requiring more than 3 colors, halftones, or process printing, a custom quote is required.

EYE MARKS:

Manufactured plastic bags require a small mark (approximately 3/16" x 1") be printed on the face of the bag. This is needed to identify where to cut and seal the bag.

OVER/UNDER RUN ALLOWANCE:

Less than 25,000 = 20%; 25,000-50,000 = 15%; 50,000+ = 10%
These production allowances are based on industry standards primarily due to the flexo-web printing process. Special needs can be accommodated, but will require a custom quotation. Material tolerances, bag sizes and thickness can vary by as much as 10%.

PRODUCTION TIME:

Listed separately for each product. Three to six weeks from proof approval; depending on product being ordered.

SHIPPING: FOB Factory

Off Shore Manufacturing General Information

(Applies to pages 22, 23, 24, 25)

INK COLORS: Free PMS ink match for non-metallic ink colors.

PLATE CHARGES: Plate charges are per color and in last column listed on their respective pages. Plates are billed at cost and are different for each product. Plates are custom quoted for full ink coverage on plastic bags. One printing plate is required per color per side. Art for PROCESS printing requires one plate per color (4 total) not including additional plates required for possible pms color match (if needed).

RUSH ORDERS: Rush orders must be approved by factory before a firm commitment can be made. Air freight may be required.

FOR QUICKER LEAD TIMES:

See special Expedited Lead Time pricing on appropriate page for each item.

ARTWORK: Process printing requires high-resolution vector artwork. These files are typically too large for email and can be sent using FTP, WeTransfer or Dropbox.

PROOFS:

Standard procedure is to proof art by emailed PDF. For color critical projects, a color print should be sent with order and most cases preproduction sample is available at an upcharge.

FOB: Los Angeles port.

TERMS: All offshore manufactured orders require a 50% deposit. Balance net 30 days with credit approval.

OVER/UNDER ALLOWANCE:

Listed on respective pages.
Tolerance: bag sizes and thickness can vary by as much as 10%.

PRODUCTION TIMES:

Production time is from date of final art approval and/or proof approval, (not from date order is received) to ENTRY and does not include in land shipping transit time and/or time needed for customs clearance. Factory accepts no responsibility for customs or forwarding delays that are beyond our control.
