# WE ARE DOING OUR PART FOR THE ENVIRONMENT

- Our facilities are heated with efficient, clean burning natural gas.
- We use energy efficient LED lighting in all our buildings.
- We recycle over 150 tons of cardboard and plastic annually.

We are proud to have just recently completed a successful SMETA 4 Pillar Social Audit. This is a testament to our unwavering commitment to creating a safe and responsible workplace for our employees and an ethically responsible supply chain for our customers.

Keystone was an early adopter of the PPAI Code of Conduct and an annual attendee of the PPAI Product Responsibility Summit. We believe strongly in product safety and compliance. All of our products meet or exceed all published State, Federal, FDA and CPSIA guidelines and are Prop 65 Compliant. Testing documentation for any product is available upon request.

We are pleased to offer an extensive variety of products that are refillable, reusable and recyclable. Several of our new products are made from recycled materials and we continue to expand our offerings in this category. You can feel good when you place your brand on a Keystone Line product.

Refillable, Reusable, Recyclable.....Responsible
