

# GARYLINE®

DISCOVER THE MANUFACTURING ADVANTAGE

## 2021 | Bestsellers

# Bottles

## The Manufacturing Advantage...

More than 95% of our Sports Bottles are **Made in USA** at our NY Factory.

We are **Vertically Integrated** with molding, printing and assembly under one roof. This allows us to offer industry leading prices, and to always have stock availability in all colors for even the largest orders.

All drinkware products are BPA-free and tested by 3rd party Laboratories for FDA, CPSIA and CA Prop. 65 Compliance.

Support environmental sustainability with our New **UpCycle** line of products molded with **100% Post-Consumer Recycled** materials.

We look forward to working with you this year.

## What is Upcycling?

Diverting materials from the waste stream and recycling to create a product of Higher Quality and Value than the Original.

Garyline® is the first to offer this New 100% Post-Consumer Recycled material to the promo market. Join us as we work toward an Eco-Responsible Future!

Single-Use Containers are given a Second Life as Reusable Sports Bottles that can be continually Refilled which will divert hundreds more disposable bottles from landfills.

## Here's How It Works:

The containers are sorted, shredded & sanitized to meet FDA compliance to make rPET material.

Single-use PET drink bottles & milk jugs are reclaimed from municipal recycling centers.

## Good News!

As a primary manufacturer, we can custom mold many of our Sports Bottles with 100% Post-Consumer Recycled content!

### TB Bottle Series: Pages 10-12

We Can Custom Mold Any of These Bottles with 100% rPET in All Colors Except Clear.
