Upcycling

- Diverting materials from the waste stream and recycling to create a product of Higher Quality and Value than the Original.
- Single-Use Containers are given a Second Life as Reusable Sports Bottles that can be continually Refilled which will divert hundreds more disposable bottles from landfills.

HERE'S HOW IT WORKS:

Single-use PET drink bottles and milk jugs are reclaimed from municipal recycling centers.

The containers are sorted, shredded and sanitized to meet FDA compliance to make rPET material.

Fun Fact:
Garyline is the first to offer this New 100% Post-Consumer Recycled material to the promo market!
