THE ST REGIS ADVANTAGE

State-of-the-Art Decorating Techniques

Hand Deep Etch

Trust the Experts. St Regis is the industry pioneer of hand deep Etching. The classic and elegant way of permanently inscribing your inspirational words right into the award.

VividPrint™

Our Award-Winning Full-Colour CMYK digital printing process will make your award POP with over 16 million Colours. The only limitation is your imagination.

Premium Quality Materials

Optical Crystal

Optical Crystal is 100% Lead Free, individually hand polished and beveled. It is the hardness that provides the basis for the brilliant cuts and bevels, as well as the ultra-high polished surfaces.

Starfire Crystal

Starfire Crystal is lead free, and also has low iron content. The removal of this pigmentation results in a product that is equal in clarity to all but the finest optically clear crystal.

Acrylic

Acrylic Awards are a great alternative to traditional Crystal. Acrylic can easily be molded into a variety of forms, Colours and sizes and looks great when laser engraved or decorated with full Colour VividPrint™.

Industry Leading Presentation Packaging

Presentation is Everything! St Regis understand the importance of making a big impact. That's why our awards are all packaged in black satin-lined premium presentation gift boxes. Enhance your Recognition Program with optional Box Imprinting!
