PHILLY FABRIC DISPLAYS

PHILLY FABRIC BARRIERS

The Philly Display is a sleek tension fabric system that is a great alternative to standard backwall displays. Ideal for both trade show and retail display. Philly Displays are affordable, high quality exhibits with light-weight frames built for long lasting durability, ultimate portability and easier-than-ever assembly. Just slide the tubes together to make the frame and lock in place with a push button snap. Then, simply pull the pillowcase-like graphic over the frame and zip it shut. The zipper, hidden from view, tightens the stretch fabric beautifully displaying your images.

As always, there are **NO Set-Up Fees**  
**NO Proof Charge • NO PMS Match Charge**

## Need a Custom Display? We do that too!

## GARDEN FLAGS | **MADE IN THE USA** • FLANNEL BLANKETS

If you are considering to deliver your message in a vivid way at your garden, lawn or any other outdoor space, then you need a garden flag. The customized garden flag with your logo on it is more than an embellishment, but acts as a symbol or a sign which delivers your messages to passersby.

### Features:

- Flag features a pole pocket on top that slides over the crossbar on the hardware
- Hardware is made of metal and painted black

### FABRIC: 200 DENIER NYLON

# ORDER GUIDELINES

Prices are subject to change without notice.

## ACCEPTABLE FILE FORMATS:

Adobe Illustrator: PDF, EPS,  
AI Photoshop: PSD, EPS, TIF

## UNACCEPTABLE FILE FORMATS:

Quark, Corel Draw, Word, Power Point, Excel, Publisher, Pagemaker & low resolution scanned images. InDesign files, unless exported to an .EPS or .PDF format, will incur additional art charges or be rejected.

## RASTER ART: (known as bitmap art)

Raster: Any file ending with .PSD, .TIF, .JPG, .BMP, .GIF or any photographic image

## VECTOR ART: (known as line art)

Typically any file ending in .EPS, .AI or .PDF designed with a vector based program. Vector files are the preferred method of file type used by most large format printers. In the cases of 1-2 color thermal imprint, hot stamp foil and screen print, vector is the only accepted file type.

## UPLOADED ARTWORK:

For the fastest and most efficient artwork processing, please submit art via our FTP website located at: [www.AlphaSND.com](http://www.AlphaSND.com) If the FTP site is not an option for you, art files under 10 MB may be emailed to [art@alphasnd.com](mailto:art@alphasnd.com). **DO NOT** attach artwork files to e-mailed purchase orders and vice versa. Factory is not responsible for any server malfunction that affects receipt. Factory is also **NOT** responsible for omitted information on the order. All documents received after 12:00pm CST will be counted as received on the next business day.

## FILE PREPARATION:

Graphic Dimensions are subject to change without notice. Consult website or contact Customer Care for graphic template. Documents must be created and sent at 100% of final size, print ready and require no file manipulation or additional charges may apply. If ordering mural panels, create your layout as one page. **DO NOT SEPARATE THE PANELS**, this is required to ensure image alignment. We reserve the right to make slight alterations in graphics to adapt to our imprinting processes. Some thin lines or small shapes may not reproduce at the thickness or size submitted. Multicolor close registration imprints are not available on all products.

## IMPORTANT:

Convert all text to outlines, paths or curves to ensure exact duplication of a type style. Alterations to artwork will result in a necessary proof approval and may delay production time.

## ERRORS:

We cannot be responsible for errors resulting from copy that was received or approved incorrectly.

## TYPESETTING:

Our normal art set-up charge includes 4 lines of copy, if applicable. If a specific font is required, the name of that font must be noted on your PO. If we do not have the font, the type will be re-set using a standard font or one that matches as closely as possible.

## SET-UP CHARGES

The Set-up Charge represents all costs of preparing process ready artwork for production. It also includes e-mail proofing and archival storage for One year. There is no repeat set-up charge within One year of an order on same item using exact previous artwork, as long as previous order is referenced. Digital and full-color imprinting requires only one set-up charge.

## CHANGE OF COPY CHARGE

If the customer requests an addition, deletion, or change to the copy on any artwork file from a new or repeat order, a \$36.00 Change of Copy Charge will be applied.

## REPEAT ORDERS

For exact repeat orders within 1 year of original order, there are no set-up charges. Any artwork older than 1 years must be resubmitted. Proofs and therefore proof approvals are required on all repeat orders. **\*\*\*ANY ARTWORK ALTERED IN ANY WAY IS NOT CONSIDERED A REPEAT ORDER\*\*\***

## ELECTRONIC PROOFS

Proofs are provided to customer electronically via email. Per company policy, we allow for 2 free proofs. Any additional proofs after that will be charged a fee of \$10.00. Proofs are mandatory part of our production process and cannot be waived. All approvals must be submitted by responding to your proof email. Any approvals that are received after our cutoff time of 1:00pm Eastern will be counted as received on the next business day. Production time begins after proof approval and payment are received.

## WE CANNOT GUARANTEE PMS COLOR MATCHING.

If you would like to match a specific PMS color it must be specified on your PO. and when sending in artwork. Your artwork will then be optimized through our 4-color processing printing, to resemble your PMS color as close as possible. If your artwork requires a very specific color match, please request a PMS test grid. PMS TEST GRID Colors can print differently from one material to the next based on the White Point of the material. If you are concerned about matching a PMS color for a specific product we suggest ordering a Test Grid. Test Grids are a 9" x 12" printed sample of your requested PMS color and its surrounding color family. Test Grids are printed on the material for the product you are ordering. Please state on your PO. that you are requesting a Test Grid and the specific PMS color you are trying to achieve. The first Test Grid is available at no charge, customer to pay overnight freight. Each additional Test Grid is \$20.00 plus freight.

## Example Match Print :

A 1/4 scale print of the entire art file. This is the best and most accurate way to represent the entire printed piece. A Match Print will show color and image representation of the whole piece. Please state on your PO. that you are requesting a Match Print, so it will be recorded on your order. The first Match Print is available at \$20.00, customer to pay freight. Each additional Match Print is \$20.00 plus freight. TEST STRIPS: For the most accurate representation of print quality and image resolution, we recommend requesting a test strip. An 8" x 20" section of the art is printed at 100%. Please state on your PO. that you are requesting a Test Strip, so it will be recorded on your order. The first Test Strip is available at \$20.00, customer to pay freight. Each additional Test Strip is \$20.00 plus freight.

All Prices are subject to change without notice.
