SEE ALL OUR NEW PERSONAL PROTECTION GEAR FEATURED INSIDE

The CDC has published the following guidelines and recommendations for how to wear face masks to help protect yourself and others from contracting or spreading COVID-19: Our Protection Collection is curated with these guidelines in mind, and each of our products is thoroughly tested for safety and compliance to ensure you get a product you can trust.

- Wear a face mask or face covering in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.
- Make sure it fits properly. Your face mask or covering should cover your mouth and nose, and leave no exposed gaps on the sides of your face.
- Masks with at least 2 layers of tightly woven cotton are recommended for personal use.
