SEE ALL OUR NEW PERSONAL PROTECTION GEAR FEATURED INSIDE

PPE GEAR

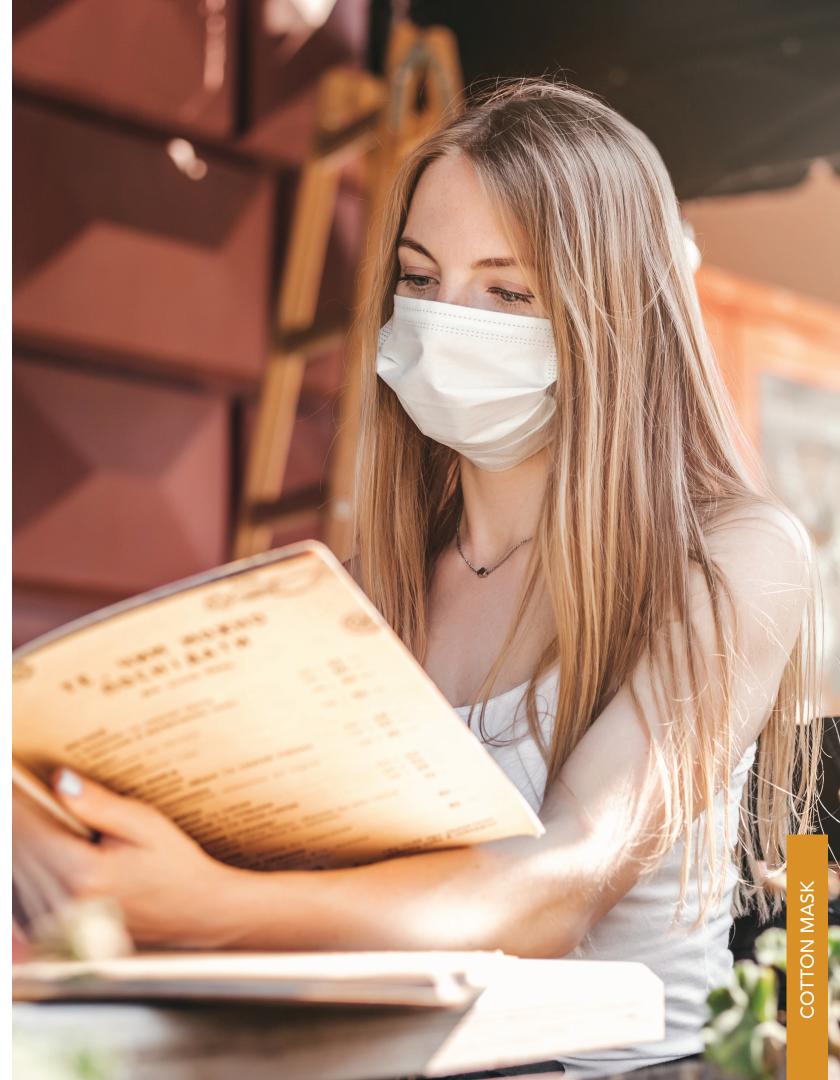

The CDC has published the following guidelines and recommendations for how to wear face masks to help protect yourself and others from contracting or spreading COVID-19: Our Protection Collection is curated with these guidelines in mind, and each of our products is thoroughly tested for safety and compliance to ensure you get a product you can trust.

- Wear a face mask or face covering in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain.
- Make sure it fits properly. Your face mask or covering should cover your mouth and nose, and leave no exposed gaps on the sides of your face.
- Masks with at least 2 layers of tightly woven cotton are recommended for personal use.

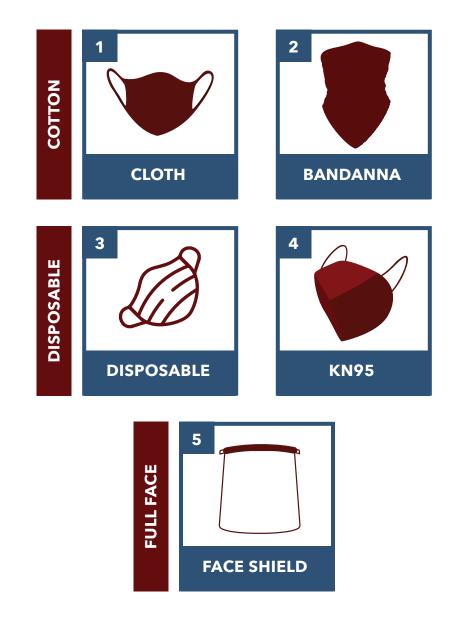

YOUR PPE PROTECTION AND SAFETY HEADQUARTERS

Our Protection Collection is curated with these guidelines in mind, and each of our products is thoroughly tested for safety and compliance to ensure you get a product you can trust.

CHOOSE YOUR PROTECTION

4 CATEGORIES TO PICK FROM

COMFORTABLE AND 100% CUSTOMIZABLE

Each mask has multi-layering machine washable cotton fabric and an included filtration cloth. We offer edge-to-edge custom, full color sublimation on our mask to ensure your brand/message has the maximum exposure, but you are fully protected.

MEMORY SIZES RANGE FROM 128MB - 64GB

YOSEMITE

Imprint ID provides customized wood USB flash drives in a variety of wooden species. We can brand wood usb drives with your logo by laser engraving, screen print or photographic full color printing. Be eco-friendly with our recycled wood or bamboo usb drives.

Available Colors

Our lineup of USB Drives is extensive and impressive. Browse the next several pages to find a style that suits your needs perfectly.

DUPONT

EASY AS 1. 2. 3.

Designing your custom USB drive is simple. Digital Imprints will guide you through the entire creation process. Simply send us an image or brief description of your idea and your logo, and we'll design and create your custom drive in as little as 4 weeks.

1. A true 3D model is created per your idea.

Provide us with an image of your idea as well as your logo. We will then create a 3D model based on your idea.

- 2. A photorealistic render is then created for your approval. A lifelike render is then created from the 3D model, for you to either revise or approve.
- **3.** A mold is then made, and your product comes to life! A custom mold is machined using the 3D model, and an exact tangible copy is physically created using plasticized PVC.

SKYLARK

2600 mAh Aluminum power bank. Available in a variety of anodized colors. Charges via included USB cables. Screen print or laser etch your logo. Weighs 80 grams.

EASY AS 1. 2. 3.

Custom power banks are fun and easy to design. Just select your battery size, and send us a photo or image of what you'd like interpreted into your custom power bank. Supply us with your logo, and we can have your custom power bank delivered in as little as 4 weeks.

1. A true 3D model is created per your idea.

Provide us with an image of your idea as well as your logo. We will then create a 3D model based on your idea.

- 2. A photorealistic render is then created for your approval. A lifelike render is then created from the 3D model, for you to either revise or approve.
- **3.** A mold is then made, and your product comes to life! A custom mold is machined using the 3D model, and an exact tangible copy is physically created using plasticized PVC.

TECH: CABLES

EASY AS 1. 2. 3.

Designing your custom PVC cables and wall plugs is easy using Digital Imprints' design team. Send us an image and logo of what you want featured on your custom cable or wall plug, and we will usher you through the design process.

1. A true 3D model is created per your idea.

Provide us with an image of your idea as well as your logo. We will then create a 3D model based on your idea.

- A photorealistic render is then created for your approval.
 A lifelike render is then created from the 3D model, for you to either revise or approve.
- **3.** A mold is then made, and your product comes to life! A custom mold is machined using the 3D model, and an exact tangible copy is physically created using plasticized PVC.

EASY AS 1. 2. 3.

Get your point across with video brochures from Digital Imprints. Easily create your customized brochure with one of our designers. Pick your screen size and the buttons you want, and design a completely custom brochure, delivered to your door in as little as 3 weeks.

1. Design your layout.

Pick your screen size, amount of buttons, and brochure size. From there we will create an easily populated template for you to design.

- A photorealistic render is then created for your approval.
 A lifelike render is then created from the populated template, for you to either revise or approve.
- 3. The brochure is cut and printed, ready for delivery.

After the cardstock is cut and printed, your custom screen and buttons (if applicable) are placed inside.
