IMPRINT/ARTWORK FAQ'S

1. How does the quality of my artwork affect the imprint?

The quality of your artwork directly impacts the clarity and final appearance of the imprint. High-resolution, properly formatted artwork ensures the best printing results.

2. What layout details should I provide with my order?

Please include a detailed layout specifying your desired size and position of the imprint. If no size or position is specified, ImprintID will use its discretion and send a paper proof. For layered artwork, supply each layer as a separate art file.

3. Can I have text added (straight line copy) at no charge?

Yes. Up to four (4) lines of straight line copy will be typeset for free. If you need more than four lines or curved/complex text, additional art charges may apply. Remember, the customer is responsible for proofreading.

4. What copy size is recommended for my imprint?

Copy size varies by product. We will use our discretion to choose the best possible imprint size. In some cases, larger text may be necessary to ensure clarity. If changes are needed to optimize printing, we will contact you.

5. Can I request a paper proof before production?

Yes. We offer free paper proofs upon request. However, charges may apply if you make changes to the artwork after it's been sent to production.

6. What are the requirements for digital artwork files?

- File Formats: Vector artwork in .eps, .pdf, or .ai format is preferred. All fonts must be converted to outlines.
- Resolution: For raster images, create art at a minimum of 600 dpi and save as .tiff or .eps.
- Embedded Images: All placed images must be embedded.
- Reference Copy: Include a PDF or hard copy of the file for visual confirmation.

7. Which programs and requirements are acceptable for submitting artwork?

- Adobe Illustrator (.ai, .pdf, .eps) Convert all fonts to outlines.
- Adobe Photoshop (.tiff, .eps) Minimum 300 dpi for artwork. Scanned halftones and multi-color artwork is not acceptable.
- Corel Draw Convert all fonts to curves, then export as .ai or .pdf. Placed images must be at least 300 dpi.

Color-placed images are unacceptable. The preferred export format is Adobe Illustrator PDF.

Note: We do NOT accept page layout formats like .doc, .pub, .vcf, or .dat.

8. How can I store and send my artwork files?

We accept files on cloud storage, CD, DVD, email, or FTP. Files over 5MB should be compressed (e.g., Stuffit, WinZip, Zipit).

9. What is the best way to submit my purchase order and artwork?

Preferred Method: Email your purchase order and digital artwork together to orders@imprintid.com.

Must meet all digital artwork requirements.

Include the purchase order number in the subject line, along with your distributor company name and phone number.

Include product style number, product color, and imprint color.

Important: Do not include order instructions in the email body beyond initial art/PO details. Once the order is processed, all proof communications will occur via artwork@imprintid.com.

10. How do I approve the artwork?

All approvals must be submitted via email. You will receive a link to review and approve or request revisions by the next business day after your order is processed. Phone approvals are not accepted.

11. How do I request changes to my artwork?

Send all order and artwork changes to artwork@imprintid.com. Include your Sales Order or PO number in the request to ensure auick processina.

You may revise artwork multiple times before final approval, but please allow up to 24 hours for a new proof. Repeated revisions may delay your "in hands" date.

12. What if I need revisions after I've already approved the

If changes are needed on the same day of approval (before 5pm ET), email artwork@imprintid.com immediately.

If changes are requested one day after approval, any production charges may be your responsibility unless it is ImprintlD's error. Printing typically starts the day after artwork approval.

Note: To avoid delays, please provide clear and detailed revision instructions each time.

If you have any further questions or need clarification, feel free to contact our Customer Service Team. We're here to help ensure your artwork looks its absolute best!

PRODUCTION & SHIPPING FAQ'S

1. Where are your production facilities located?

We operate facilities in both the U.S. and China, providing flexible options and competitive pricing.

2. Which carriers do you use?

Overseas Products: Shipped via UPS, FedEx, and DHL. U.S. Decorated Products: Shipped via UPS and FedEx.

3. Do you ship outside the Continental U.S.?

Yes. We ship to all major U.S. territories and Canada. Contact us for a Canada shipping estimate.

4. How will I receive tracking information?

We send tracking numbers by email once your order ships. If you need updates, please email cs@imprintid.com or call 877-385-7785 x2.

5. Can I drop ship to multiple locations?

We typically calculate shipping for one location in the Continental U.S. If you need multiple drop-ship locations, please contact sales@imprintid.com for additional freight charges.

6. How long does production and shipping usually take?

Production and shipping times vary by product; please refer to our product list for specific estimates. Note: We're not responsible for carrier delays or customs issues beyond our control.

7. What if I have specific production questions?

For any additional production or shipping questions, please contact our Sales Team as soon as possible to discuss your needs.
