FedEx completely lost our crystals and could not tell us anything about where they were. I relayed the information to Michelle and she immediately overnighted us out new pieces. Saving our reputation and saving our customer's event. THANK YOU!!!!!! The designers and production staff who rushed out our project deserve some applause too!! Thank you all!

I wanted to share our customer's praises for their first order with us, and Crystal-D was obviously a big part of that.

"This is just a quick note to thank you...They are simply beautiful and exactly what we wanted. As we expand the scope of our research, we will definitely repeat our custom (order) with you. Our deepest thanks on a job well done."

Crystal-D aligned themselves with the clients branding. They went beyond a logo. THAT is how we connect and become true partners with our clients. Erika and her team deserve major recognition for this.

I encourage you all to check out Crystal D if you are unfamiliar, and please do not hesitate to reach out to Erika for assistance on any upcoming projects. Thanks!
