

Make Your Brand Shine for the Planet This Earth Day 🌍

*Our holographic material is
30% post-consumer recycled.*

This Earth Day, we're proving that "going green" can still look mesmerizing. Our most eye-catching material can now help your customer reduce their environmental impact without losing a single spark of attention-grabbing, shelf appeal.

Sustainability Without Compromise

By incorporating **30% Post-Consumer Recycled (PCR) content**, we are giving plastic waste a second life as a high-impact promotional sticker. It's the same color-shifting finish you love, now with a story your customers can feel good about.

- **Eco-Conscious Innovation:** 30% recycled content reduces raw plastic usage.
- **Vivid Full Color Imprints:** When paired with the holographic material, your graphics shift and dance alongside a spectrum of brilliant, rainbow-colored light.
- **Any Shape, Any Size:** Custom die-cutting allows your brand to stand out in its most unique form or pick from 18 popular shapes and size.
