

GET READY FOR THE
**SOLAR
ECLIPSE**

The next total solar eclipse is on **April 8th 2024** and will be visible across all 48 United States, as well as Mexico and Canada. A total solar eclipse is when the moon passes between the sun and the earth, completely blocking the face of the sun and the entire sky will darken as if it is nighttime. Order customized solar eclipse glasses in time for this event.

The next total solar eclipse will not be for another 20 years!
