NEW! QR Code Menu Scanner

The Future of Dining Out is Here!

Scan the QR Code with your phone...and order!

★★★50 Pieces Just \$2.45(R)★★★

In our quickly changing world, the new normal will be scanning the menu and ordering on your phone! Order beverages, food, desserts, and pay your bill....all touchless, germ-free, quick and easy!

The Who, How & Why to Sell the Menu Scanner!

Advertisers – Liquor, Beer, Wine & Soda brands would love to put their products in front of diners throughout their meal. The Menu Scanner gives them a billboard to drive sales to their products. Simply get the restaurant's QR code and we will customize each order to the individual restaurant.

Restaurants – Menu Scanner can mean fewer employees, less contact, and higher efficiency. It allows patrons to easily order and pay at their convenience. To reduce or eliminate costs, the restaurant can co-op with one of their beverage or food suppliers who would be happy to get their brand so much exposure.

Local Merchants & Organizations... can get exposure and raise awareness. Local attractions or charities can pay for the Menu Scanner and offer a discounted admission or promote their cause. There are many who would be happy to pay the small cost for prime advertising space with a captive audience.
