The sports bottle is an ideal training partner with its particularly ergonomic form and easy-grip surface structure, and fits in all common bicycle bottle holders. Made from a single piece of high-quality recycled aluminum, making it light and strong. It keeps a tight seal, even with carbonated drinks. The highly elastic interior coating is resistant against fruit acids and is tasteless. Cleaning and filling are even easier thanks to the extra-large opening of the Wide Mouth Bottle, even ice cubes will fit inside the SIGG.

Made of 100% post-consumer recycled aluminum
