

Totally Bamboo

The Benefits of Bamboo

Bamboo is a sustainable, natural resource. It's grown without pesticides, artificial irrigation or chemical fertilizers, even on difficult terrain. Since bamboo is a grass, it quickly regrows after harvest and can grow up to 3 feet in a single day!

The same reason's that make bamboo an eco-friendly material also make it an affordable and durable one. Bamboo cutting boards are gentle on knives, and make for a great way to place your brand at the heart of your prospect, customer, or employee's home.
