

METAL BADGES

Brass Metal Name Badge

- Full Color imprint embedded into badge
- Thick, dense brass holds up well
- These go great with steak *and* fish
- Includes up to 3 lines of personalization
- Light enough for comfort, heavy enough to stop a flaming hatchet

Standard Metal Name Badges

- .020" thick aluminum
- Full color imprint, including full bleeds
- Great for everyday use (Everyday use does not include your washer and dryer)
- Choose between white or silver aluminum
- May not get you through tight security, but you'll look great being escorted out.

Thick Metal Name Badge

- Thicker .040" aluminum
- Much more dense and harder to bend
- Available in white or silver
- Full color imprint, including full bleeds
- Same great look. More durable. Not 'sledgehammer proof', but closer.

Framed Metal Name Badges

- Uses the same materials as above
- Badges are attached to a metal beveled frame
- Frames available in silver or gold
- Front plate is available in white, gold or silver
- Super attractive. If these badges were people, you'd ask them out.
