Our best-selling monthly desk calendar comes in five classic colors and features a large front panel for your imprint. There's a convenient phone index under the date pad and a full-year calendar on the back.

But if you want some more bang for your advertising buck, you can also add more custom information under the calendar pad, AND on the calendar back—all at no additional charge! That's a huge 24 sq. inches of your custom ad space on your customers desk that will be viewed every day. Great for branch locations, addresses, special message and so much more. As low as $2.57(C)
